

Dear FCC,

It has come to my attention you are considering new LPFM stations take priority over current FM translator services. I'd like you to ask you not to let this happen. I'd also like you to know the value of K-LOVE 100.1 in San Diego, an FM translator service.

K-LOVE is valuable in that, they provide local Christian event information, a forum to advertise local events for non-profits and a information dispersal network not offered by any other local station. They also provide specific prayer and encouragement to the people in San Diego. And ultimately, they provide music programming not available any place else on the radio dial here in San Diego.

San Diego would be negatively impacted if K-LOVE was no longer on the air. The San Diego Christian community would be without local access to needed advertisement air space, without quality entertainment, and without local spiritual help.

K-LOVE was instrumental in encouraging San Diego during the 9-11 events, during the wild fires, and during recent earthquakes.

The public needs spiritual care, and without K-LOVE San Diego churches and non-profits would be without the needed information dispersal avenues required for proper public awareness and encouragement.

Please carefully consider the impact of your decision on all San Diego communities and do not take any action that would force K-LOVE off the air.

Sincerely,
Keren Thillet
